Images Luxury Nail Lounge is Now Home to the World's Most Expensive Bottle of Nail Polish

Newport Beach, Calif, Jan. 27, 2016 (GLOBE NEWSWIRE) -- Images Luxury Nail Lounge in Orange County, California is now home to the country's most expensive bottle of nail polish, Gold Rush by Models Own. The ultra lavish nail lacquer, worth \$130,000, features a yellow gold bottle top encrusted with more than one thousand real diamonds and offers painted nails a similarly opulent aesthetic. While Models Own sells "ready to wear" version of the polish on its website, Images Luxury Nail Lounge is the only place in the nation with access to the real, diamond-dusted Gold Rush.

"We are very excited to now offer our clients exclusive access to this rare polish," said Tony Nguyen, general manager of Images Luxury Nail Lounge. "Not only is the bottle absolutely exquisite, but also the richness and dimension of the color on nails is unlike any other polish on the market. It truly looks as if your nails have been adorned in gold leaf and sprinkled with diamond powder."

Since opening, Images has become synonymous with the word "luxury." The nail retreat offers one of the most extravagant (and expensive) mani-pedi menus in the world, with treatments that run as much as \$25,000 and include a personal jeweler. However, the salon is not all "Glitz and Glam." In addition to its more budget-friendly mani-pedi options, Images Luxury Nail Lounge is also a massive force in its community, regularly donating its services to various charitable organizations and local senior-living homes.

"At the end of the day, our passion is pampering," said Nguyen. "Sometimes that means our Gold Rush manicure in a private suite and sometimes, it's as simple as a foot massage and soak in our mineral bath. Either way, our goal is to give clients a luxurious retreat for the day, a place where they can embrace indulgences and be whisked away from the stresses of life."

Welcome to the 21st century's gold rush.
